

LAND-LGR

LASER GUIDED WEAPON SYSTEM

New ground in guidance.

LAND-LGR4 "Fletcher" is lightweight, reliable and provides precision fire support previously only available utilizing aviation assets. It can be mounted on a ground vehicle, watercraft or be stand independently. It was first unveiled in 2017 at DSEi in London and has since undergone highly successful test firings with 100% success rate at distances up to 6km.
